Integrated Airman Certification and Rating Application (IACRA) is a web-based certification/rating application that guides the user through the FAA's airman application process. IACRA helps ensure applicants meet regulatory and policy requirements through the use of extensive data validation. It also uses electronic signatures to protect the information's integrity, eliminates paper forms, and prints temporary certificates. IACRA can be accessed here: <https://iacra.faa.gov>.

- All applicants must establish an FAA Tracking Number (FTN) within the Integrated Airman Certification and Rating Application (IACRA) system before taking any FAA airman knowledge test.
- The FTN is an 8-digit unique and permanent number assigned to each FAA certificate holder. This identification number will be printed on the applicant's Airman Knowledge Test Report (AKTR) in replacement of the Applicant ID number.
- To register for an FTN in IACRA, applicants will need to visit the [IACRA website](https://iacra.faa.gov) and follow the instructions provided.
- If you have been issued an FAA airman certificate in the past, then you already have a FTN. To find your FTN, you must enter your certificate number during the IACRA registration process.
